

Cardiopulmonary testing

24 Hour Holter Monitoring 24 Hour Ambulatory Blood Pressure (ABP) Electrocardiogram (ECG)

- ✓ All Medicare patients are Bulk Billed
- ✓ Leading cardiologists reporting
- ✓ Reports are uploaded to your results inbox the next business day

Trace & specialist reports are delivered electronically into Best Practice, M.D. etc.

The screenshot displays a medical software interface. At the top, there's a patient information section with fields for Name, Address, Date of Birth, Age, Sex, and various medical history fields. Below this is a 'Reactions' table with columns for Item, Reaction, and Severity. The main area shows a 'Resting ECG - 4Cyle Pathology' report. It includes patient details (Patient ID: FN0123456789, Name: Test Patient, Date of Birth: 01/01/1977, Age: 46, Sex: Male), procedure information (Recorded Date: 30/08/2023 10:49:16, Confirmed Date: 30/08/2023 12:54:10), and a list of measurements (PR: 92, aPRB: 122, QT: 414, QTc: 404, P/ax: 52, Q/ax: 52, T/ax: 52). The status is 'Finalised' with a heart rate of 57 avg bpm. Below the measurements is a 12-lead ECG trace showing leads I, II, III, aVR, aVL, aVF, V1, V2, V3, V4, V5, and V6.

How do I order for my patients?

1. Provide your patient with a test referral (4Cyle preferred but all forms accepted)
2. Direct your patient to attend a 4Cyle Collection Centre (please scan QR code)
3. 4Cyle Collection Centres will test patients on a walk-in basis (subject to instrument availability)
4. Trace and specialist report will be automatically uploaded by 4Cyle Pathology into your MD/BP/etc results inbox.
